

# Vskinz© Installation Instructions

Thank you for the purchase of your new Vskinz© Digital Drum Wrap Kit. Please take the time to read these instructions in full prior to beginning. This will ensure that you are equipped to make a satisfactory application. Once wraps are installed or removed from the liner backing paper, they are non-returnable.

## Tools Needed:

- A. Shell hardware disassembly tools.
- B. Warm soap and water solution to clean exterior shell surface.
- C. Soft cloth
- D. Small kraft blade or Exacto© Blade (see illustration below)

## Installation:

1. Remove all hardware from the drum shell. (except PD/KD85)
2. Using damp, soft cloth, wipe the shell exterior clean with the warm soap and water solution. Allow shell to dry WELL. A hairdryer on low setting will help force dry the shell a bit quicker. Don't get carried away with the heat or you could damage the shells shape.
3. Since Vskinz© are intended to have a small overlap once they are fully applied, begin by applying your wrap from the side of the shell closest to the drummers throne. Wrap evenly all the way around the shell (keeping design in even alignment) until your design matches back up to the original starting point. At this point, you should have a small overlap to ensure that no OEM shell finish is left remaining.
4. Once the wrap is completely applied in alignment and to your satisfaction, take the blade and cut out any hardware holes from the inside diameter of the hole.

**DO NOT CUT ON THE OUTSIDE OF THE HOLE ON THE FACE OF THE OEM SHELL FINISH.**

**PLACE THE BLADE ON THE INSIDE OF THE HOLE AND TRIM AROUND THE INSIDE ONLY.**

5. Trim around any logo plates CAREFULLY making sure not to cut into the factory finish.
6. Re-install all shell hardware.

## Disclaimer

Inkfish Graphics accepts no responsibility for the damage to a drum shell due to improper installation or improper handling. Please use caution when handling an exacto blade. Once installed, please take a digital picture of your kit and submit it to [info@inkfishgraphics.com](mailto:info@inkfishgraphics.com). If you have any difficulties with your installation, please feel free to contact us at 706-695-2992 from 9am-5pm EST Monday-Friday.
